Experience

Project After Hours November 2024 - Current

-“Unannounced”

-Project After Hours is an independent animation studio that I contribute to, both as a 3D Animator and Layout Artist. We are currently working on multiple animated shorts that will be released soon.

Wildbrain August 2021 - October 2023

-“Sonic Prime”

-Worked as a 3D Layout Artist from season 1-3 of the show. I was tasked with setting up maya files to translate storyboards into highly dynamic 3D sequences. I would speak with my supervisors and directors for guidance, then create cinematic shots to pass along to the animation department.

-“Fireman Sam”

-Worked as a 3D Animator on Season 15 of the show. I was tasked with producing clean and charming character animation to convey our story in a clear and fun manner.

-“Lego Dreamzzz”

-Worked as a 3D Layout Artist from season 1-2 of the show. I was tasked to create energetic and appealing camerawork sequences to sell the story of a mind-bending dream world.

Hexbug June 2020 - June 2021

-Hexbug is a robotics/toy company located in Greenville, Texas. I worked as a 3D Generalist Intern, specializing in 3D animation. I was also responsible for modeling, rigging, lighting, rendering and pitching ad ideas.

The Color Red 2018 - 2019

-Wrote and Directed *The Color Red*, a short animated film as my senior thesis project at SCAD. I also served as a Storyboarder, and a 2D Animator.

-The film was awarded as a semi-finalist in the New York Animation Film Awards.

Key Skills

- 3D Character Animation (Autodesk Maya, Blender)
- Camera Animation and Cinematography
- Motion Capture Animation and Cleanup (Motion Builder)
- Adobe Creative Suite (Photoshop, Illustrator, After Effects)
- Illustration (Traditional, Procreate)
- Proficient Collaborator and Communicator
- Effective Problem Solver
- Strong Eye for Detail
- Excellent Time Management Skills
- Extremely Self Motivated
